THE NEEDS OF STUDENTS WITH AUTISM
Approved by NY State Education Department
Instructor: Kathy Ralabate Doody, M.S., Ed

This course will present a comprehensive overview of the characteristics of students on the autism spectrum including Autism Disorders, Aspergers, and PDD-NOS. Discussion on how children and adults with autism are evaluated and classified including diagnostic medical models versus diagnostic educational models. The effects of autism on the family including parents, siblings, and the extended family will be discussed.

This course meets the requirements of Chapter 484 of the Laws of 2008 which amend Sections 3004(4) and (5) of the Education Law effecting teachers in special education and certified school administrators or supervisors assigned to serve this population prior to and after September 2, 2009. It is in response to the growing number of children being diagnosed with autism and the education/training needs of the special education teachers and administrators who work with them.
