Welcome

Hello everyone! We're a little more than halfway through the semester now and all the clubs and organizations are in full swing! We are so excited about all the awesome events, meetings, and fundraisers you guys have put on!

Reminders

With the risk of sounding like a broken record, it is imperative that I receive the minutes and attendance from club meetings. I am getting next to none across the board from all clubs and organizations. This will only benefit your clubs, so please please start sending them to me after meetings! ☺

Another suggestion that I wanted to make, is that when it comes to filling out and turning in event proposals, travel requests, etc. please make sure to turn them in at the very least two weeks before the actual event date so there is time to bring it to the finance meetings for approval.

The events being proposed can't run until they are approved by Student Senate. Often times, the first time an event is proposed at a finance meeting Student Senate will ask some questions and request some changes before the event is approved. If the forms are brought in at the right times, this will prevent any unnecessary stresses about rescheduling things due to the fact it wasn't approved right away.

I'm sure you all realize how much work goes into planning an event, so the more time you have to do so the easier it is. You'll have more time to talk to dining services if need be, fill out the required PO's, reserve the rooms, get the needed supplies, and all the other things that go into planning an event!

Practice makes perfect! Let's get into the habit of submitting things on time to reduce the stress for everyone involved ☺

Applied Learning

Have you heard of Applied Learning? SUNY's newest initiative stresses the importance of hands on, experiential learning beyond the classroom as part of the college experience.

Being part of a club or organization is one way to participate in Applied Learning, and we want to help make your experience even better! New tools and resources for event planning, community service, and fundraising will be coming your way.

In the meantime, if you have questions about Applied Learning please feel free to reach out to Britani Pruner at bpruner@niagaracc.suny.edu. Stay tuned for more!

Community Service Opportunities

If your club has done any community service, please inform me! I haven't received any community service hours from clubs and remember, there is a required amount of hours in order to keep your club status and ability to receive funding!

With that being said, I wanted to make you all aware of a couple opportunities coming up in November and December!
