Annual Security Report

Foreword

On behalf of the College, welcome to Niagara County Community College!

At the College, our foremost concern is the safety and well-being of the students, faculty, staff and visitors. The Public Safety Department ("PSD") is dedicated to providing service in keeping with our focus on Community Safety. We are here 24 hours a day, every day working to maintain and improve the safety, security, and quality of life within our community.

Niagara County Community College ("NCCC") has more than 3000 undergraduate students, with approximately 600 faculty and staff. There are 2 campuses, the Sanborn campus and the Niagara Falls Culinary Institute ("NFCI").

Our 250-acre main campus is situated in Sanborn NY; with classrooms and residence halls and is located between Lockport, NY and Niagara Falls, NY; the Niagara Falls Culinary Institute is located in a 90,000 square foot building in the City of Niagara Falls, NY. The data from all campuses are included in this report.

CPSD works closely with students, faculty and staff across the campus to achieve the highest levels of personal safety possible. PSD is staffed around the clock, 365 days a year, directed by the Chief of Campus Public Safety a commissioned peace officer.

The College provides an extensive array of Public Safety programs and procedures, which are described on the following pages. Our continuing effort to improve safety has led us to implement several initiatives – regular foot and mobile patrols, beginning randomly in the morning and continuing throughout the night. We also meet regularly with local police, government officials, community leaders, and Student Housing, seeking ways to make on-campus and off-campus living safer for our students. While this report is updated annually, we encourage you to check on the College's website for periodic updates on campus safety and victim support programs offered by CPSD, Student Life, Student Housing, the Wellness Center, and other campus offices and departments.

While we have developed procedures and policies to ensure that students and their possessions are protected as much as possible, it is primarily the responsibility of the student, faculty, or staff member to provide for his or her own safety and security by taking simple, common sense precautions, and by reporting information to PSD or other campus security authorities, including the Office of the Vice President for Student Services, Student Housing Village Corporation, and the Title IX Compliance Officer.

All campus crime and incident reports are posted promptly on the College's website. In cases where a reported crime appears to threaten the safety of the campus community, the College takes additional steps, email notifications, telephone alerts, and television notices, to notify the campus community of what has occurred and the steps that are being taken.

CPSD provides 24-hour-a-day, 365-day-a-year mobile and foot patrol protection to campus properties internal and external.

The College and CPSD strives to promote and maintain a campus environment conducive to academic achievement. A truly safe campus can only be achieved through the cooperation of the entire campus community. With your help and participation and our commitment, we are confident that the time you spend with us will be safe and productive.

Sincerely,

Wayne P. Lynch,
Vice President of Administration

CAMPUS CRIME STATISTICS

Under the Clery Act campuses are required to report campus crime statistics for certain offenses, hate crimes, arrests and disciplinary referrals to the campus judicial process. In all cases, this data must be broken down according to the geographic location of the occurrence of the offense. These locations are defined as the campus "Clery Geography" under the Act.

Clery Geography

On Campus

Any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution's educational purposes, including residence halls; and any building or property that is within or reasonably contiguous to paragraph (1) of this definition, that is owned by the institution but controlled by another person, is frequently used by students, and supports institutional purposes (such as a food or other retail vendor).

On Campus – in Residential Hall

"Dormitories or other residential facilities for students on campus" are a subset of the on-campus category. Institutions must disclose the total number of on-campus crimes, including those in dorms or other residential facilities for students on campus, and must also make a separate disclosure limited to the number of crimes occurring in student dorms or residential facilities on campus. As a subset, the number of crimes reported for dormitories or other residential facilities must be less than or equal to the number of reported crimes for the on-campus category.

Non-Campus Building or Property

Any building or property owned or controlled by a student organization that is officially recognized by the institution; or

Any building or property owned or controlled by an institution that is used in direct support of, or in relation to, the institution's educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the institution.

On Public Property

All public property, including thoroughfares, streets, sidewalks, and parking facilities, that is within the campus, or immediately adjacent to and accessible from the campus.

CRIMINAL OFFENSES (Sanborn Campus)

Hierarchical Offenses

The following criminal offenses are reportable offenses under the Clery Act for the Sanborn Campus. Hierarchical offenses are listed a single time for each location category under the most serious offense committed. On campus statistics include both incidents reported to police and those reported to non-police officials and may therefore contain multiple entries for the same incident.

NEW YORK STATE LAW DEFINITIONS

CONSENT: Lack of consent results from: forcible compulsion; or incapacity to consent; or where the offense charged is sexual abuse or forcible touching, any circumstances, in addition to forcible compulsion or incapacity to consent, in which the victim does not expressly or impliedly acquiesce in the actor's conduct. Where the offense charged is rape in the third degree, a criminal sexual act in the third degree, or forcible compulsion in circumstances under which, at the time of the act of intercourse, oral sexual conduct or anal sexual conduct, the victim clearly expressed that he or she did not consent to engage in such act, and a reasonable person in the actor's situation would have understood such person's words and acts as an expression of lack of consent to such act under all the circumstances. A person is incapable of consent when he or she is: less than 17 years old; or mentally disabled; or mentally incapacitated; or physically helpless; or committed to the care and custody of the state department of correctional services, a hospital, the office of children and family services and is in residential care, or the other person is a resident or inpatient of a residential facility operated by the office of mental health, the office for people with development disabilities, or the office of alcoholism and substance abuse services, and the actor is an employee, not married to such person, who knows or reasonably should know that such person is committed to the care and custody of such department or hospital.

CONSENT, ABBREVIATED: Clear, unambiguous, and voluntary agreement between the participating individuals to engage in specific sexual activity.

DATING VIOLENCE: New York State does not specifically define "dating violence." However, under New York Law, intimate relationships are covered by the definition of domestic violence when the act constitutes a crime listed elsewhere in this document and is committed by a person in an "intimate relationship" with the victim. See "Family or Household Member" for definition of "intimate relationship."

DOMESTIC VIOLENCE: An act which would constitute a violation of the penal law, including, but not limited to acts constituting disorderly conduct, harassment, aggravated harassment, sexual misconduct, forcible touching, sexual abuse, stalking, criminal mischief, menacing, reckless endangerment, kidnapping, assault, attempted murder, criminal obstruction of breathing or blood circulation, or strangulation; and such acts have created a substantial risk of physical or emotional harm to a person or a person's child. Such acts are alleged to have been committed by a family member. The victim can be anyone over the age of sixteen, any married person or any parent accompanied by his or her minor child or children in situations in which such person or such person's child is a victim of the act.

FAMILY OR HOUSEHOLD MEMBER: Person's related by consanguinity or affinity; Persons legally married to one another; Person formerly married to one another regardless of whether they still reside in the same household; Persons who have a child in common regardless of whether such persons are married or have lived together at any time; Unrelated persons who are continually or at regular intervals living in the same household or who have in the past continually or at regular intervals lived in the same household; Persons who are not related by consanguinity or affinity and who are or have been in an intimate relationship regardless of whether such persons have lived together at any time. Factors that may be considered in determining whether a relationship is an "intimate relationship" include, but are not limited to: the nature or type of relationship regardless of whether the relationship is sexual in nature; the frequency of interaction between the persons; and the duration of the relationship. Neither a casual acquaintance nor ordinary fraternization between two individuals in business or social contexts shall be deemed to constitute an "intimate relationship"; any other category of individuals deemed to be a victim of domestic violence as defined by the office of children and family services in regulation. Intimate relationship status shall

be applied to teens, lesbian/gay/bisexual/transgender, and elderly individuals, current and formerly married and/or dating heterosexual individuals who were, or are in an intimate relationship.

PARENT: means natural or adoptive parent or any individual lawfully charged with a minor child's care or custody.

SEXUAL ASSAULT: New York State does not specifically define sexual assault. However, according to the Federal Regulations, sexual assault includes offenses that meet the definitions of rape, fondling, incest, or statutory rape as used in the FBI's UCR program.

Crimes are reported that occur on campus, on locations that are contiguous to the campus, and buildings or properties that are either owned or controlled by a campus affiliated entity, including officially recognized student organizations. Please see the College map herein for the boundaries of crime reporting in accordance with the Clery Act.

Campus policy encourages every member of the campus community to report a crime promptly to PSD, campus security authorities, or local law enforcement. A procedure is in place to capture crimes statistics which are disclosed anonymously to PSD, the Wellness Center, Title IX Officer, V.P. Student Services.

A. Statistical Data

1. All criminal incident reports in the crime reporting database are reviewed for classification accuracy and sorted by:
 - a. Crime type/Incident type
 - b. Occurrence Location
 - c. Referral/Arrest Status (if associated with a Clery reportable statistic)
2. All Calls for Service Data from the crime reporting database are reviewed and compared to the incident report data to ensure that no potential reportable items have been missed.
3. All data associated with the responses from local law enforcement agencies, including: Niagara County Community College Public Safety, Niagara County Sheriff Office, Niagara Falls Police, NYS Police, Lewiston Police, Lockport Police.
4. Data is collected from the Campus Security Authorities. This information is solicited through an annual letter that details the type of information requested, the period, and the deadline to reply to the inquiry. The resulting reports are compared to existing data to avoid duplication.
5. All statistical data is compiled and included in the body of the main Clery Report.

B. Report Information

1. All sections of the previous year's report are reviewed and updates are made with particular attention to the following:
 - a. Updates to Campus Security Authorities
 - b. Verification of all stated phone numbers and addresses
2. All areas of the report are reviewed for accuracy and to ensure that the most recent changes in Clery are accounted for in the report.
3. An independent review of the report in its entirety is conducted by the designated campus Clery official and/or the NCCC counsel.

C. Submission

1. Once all data has been included in the statistical report and the main report body has been updated to reflect information or reporting requirement changes, the entire report is sent to the United States Department of Education.
2. Each year, notification is made to all enrolled students, faculty and staff that provides the web site to access this report. Copies of the report may also be obtained at the Public Safety Department located at the northeast side of the campus, inside the Student Center, Room G 106, or by calling (716) 614-6400. Reporting Missing Persons:

CPSD will take the report regardless of how long the person may have been missing. There is no requirement that the person be "missing" for 24 hours before CPSD will take a report and begin an investigation. It is the procedure of the CPSD to take immediate reports on all persons thought to be "missing" and to immediately begin efforts to locate the person.

Note that while the above notifications are required under federal law, nothing precludes contacting these or any other persons during the investigation if doing so may further the investigation, whether 24 hours has passed or not. Appropriate to the particulars of the report other resources may be contacted to assist with an investigation including other law enforcement agencies.

Missing Persons

This applies to students who reside in campus housing, operated by Student Housing Village.

Purpose

The purpose of this policy is to establish procedures for the college's response to reports of missing students, as required by the Higher Education Opportunity Act. Anyone who believes that a residential student is missing, should contact the Director of Housing immediately upon that determination. The Director of Housing in conjunction will file a report with the Chief of Campus Public Safety and then both will initiate the missing persons procedures as outlined below.

For purposes of this policy, a student will be considered missing, if a roommate, classmate, faculty member, family member, or other campus person has not seen the person in a reasonable amount of time. A reasonable amount of time may vary with the time of day and information available regarding the missing person's daily schedule, habits, punctuality, and reliability. Individuals will also be considered missing immediately, if their absence has occurred under circumstances that are suspicious or cause concerns for their safety.

Procedures for designation of emergency contact information

a. Students age 18 and older and emancipated minors – Residence students are required each semester to designate an individual or individuals to be contacted by the college "in case of emergency." Student may designate more than one emergency contact - one for general emergencies and one specific for missing persons emergencies. In the event a student is reported missing, college personnel or the Director of Housing, will attempt to contact the student's emergency designee for missing persons no more than 24 hours after the time that the student is determined to be missing in accordance with the procedures set forth below. Emergency contact designees will remain in effect until changed or revoked by the student. This contact information will be registered confidentially and will only be accessible to authorized college officials and local law enforcement in the furtherance of a missing persons investigation.

b. Students under the age of 18 – In the event a student who is not emancipated is determined to be missing pursuant to the procedures set forth below, the college or the Director of Housing is required to notify a custodial parent or guardian no more than 24 hours after the student is determined to be missing in accordance with the procedures set forth below.

c. If the above actions are unsuccessful in locating the student within four hours of the report or it is apparent immediately that the student is a missing person (e.g., witnessed abduction), the Chief of Campus Public Safety will contact the Niagara County Sheriff's Office to report the student as a missing person and the local law enforcement agency will take over the investigation.

d. No later than 24 hours after determining that a residential student is missing, the Director of Housing, or designee, will notify the missing person's emergency contact (for students 18 and older) or the parent/guardian (for students under the age of 18) that the student is believed to be missing, unless local law enforcement agency was the entity that made the determination that the student is missing.

Campus Communications about Missing Students

In all cases of a missing student, the law enforcement agency conducting the investigation will provide information to the media that is designed to obtain public assistance in the search for any missing student. The Chief of Public Safety, the Vice President of Student Services, or designee, is available to provide consultation on communication with the investigating law enforcement agency. Any media requests to the college will be directed to the Director of Public Relations.

- Director of Housing (716) 731-8850
- Public Safety Department (716) 614-6400
- Vice President of Student Services (716) 614-6240

Voluntary Anonymous Reporting Procedures

NCCC encourages all members of its community to report crimes to CPSD or other Public Safety authorities, whether he or she is a victim or a witness.

If you are a victim to a crime and you do not want to pursue action within the College's disciplinary system or the criminal justice system, you may still want to consider making a confidential report. CPSD maintains an electronic anonymous reporting system on its website- <https://www.niagaracc.suny.edu/security/tipline/> - an anonymous online form to report crimes or suspicious actions. It will not retain email addresses, IP addresses or other identifying information unless the reporting person voluntarily includes identification information.

The purpose of an anonymous report is to comply with your wishes to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With this information, the College can keep an accurate record of the number of incidents involving students, faculty and staff, determine where there is a pattern of crime relative to location, method, and assailant and alert the campus community to potential harm. Anonymous reports are counted and disclosed in the annual crime statistics for the campus. Please understand while the crime is counted for statistical purposes, confidential reporting of a crime may impede a speedy investigation and/or a thorough investigation, or it may prohibit an investigation in its entirety.

Emergency Response and Evacuation Procedures- Immediate Notification

If there is an immediate threat to the health or safety of students or employees occurring on campus, the College Emergency Notification System will communicate what action to take as directed by the NCCC Critical Incident Response Plan. The methods of determining the need, content and communication will be made by the college president or his designee. The methods of communication are as follows:

- Text message through the NCCC Emergency Alert to those registered
- College Web Site: <http://www.niagaracc.suny.edu/>
- College Monitors
- Public Address System

A follow up notification will occur when further information is available on the status of the situation, and when it is safe to return.

Significant Emergency or Dangerous Situation

Upon receiving information of a significant emergency or dangerous situation, the individual receiving the information shall call the Public Safety Department. Upon receiving the information, the CPSD will investigate all reports of emergency or dangerous situations to confirm the report. If the responding officer determines that the report is a significant emergency or dangerous situation, they will notify the proper local agency as soon as practical to advise of the situation. The Chief of Public Safety will determine the appropriate segment of the campus community to notify. The Chief of Campus Public Safety and the Director of Public Relations will determine the content of the notification, and will withhold the names of the victims as confidential. The Chief of Public Safety will initiate the notification system.

Disseminating Emergency Information to Large Community

In the event of a significant emergency or dangerous situation occurring on the NCCC campus which could have a potential impact on the surrounding community:

- The Public Safety Department will notify the local police department of the potential impact to the surrounding community
- Per the College's Emergency Plan, the Public Relations Director will act as the College's liaison with the media

Testing the Emergency Response System (NCCC Emergency Alert)

The Campus Public Safety Department will annually conduct an emergency test of the College's emergency response system. The test may be announced or unannounced. The College's emergency notification system will indicate that the drill is a test only. A debriefing will be held following the annual test to follow through on any corrections necessary. The Campus Public Safety Department will determine the type of test to be conducted on an annual basis. The Campus Public Safety Department will notify the Director of Public Relations, College administrators, and the local police agency prior to conducting the test to ensure they are aware the test is not a real event.

Safety Responsibilities For Residential Students

Students living in the Student Housing Village have the responsibility to assist in maintaining their safety by keeping doors locked at all times and are encouraged to report unsafe conditions to Student Housing Village maintenance, if needed. Student rooms are individually keyed and the procedure for replacing a lost key may include a lock change. Student Housing staff and Campus Public Safety patrol Student Housing Village. The Director of Housing, Campus Public Safety and Resident Assistants will not enter an occupant's room/suite unless accompanied by the occupant, the occupant's authorized representative, or a second authorized College representative. However, the Student Housing Village reserves the right to enter any occupant's room/suite for the purpose of inspection when an authorized College official has reason to believe that the following conditions may exist, which include but are not limited to:

- An occupant of the living unit may be physically harmed or endangered
- Significant damage is being done to College property
- There has been a violation of the provisions contained in the Housing Contract, the Student Housing Guide, or subsequent written notice applicable to the operation and administration of the Student Housing Village
- Maintenance or repair needs to be completed
- Routine maintenance checks
- Occupancy verification checks
- Wellness Checks

See the Student Housing Guide for more information concerning Student Housing policies and procedures.
www.niagaracc.suny.edu/Student-Housing-Village-Handbook

Niagara County Community College incorporates environmental security design practices in planning, building, and maintenance stages of all structures and grounds keeping. Public Safety officers will routinely file work orders with the Operations Department to report any problems with lighting, shrubbery, or other maintenance concerns. Testing of the emergency blue phones is conducted routinely by the CPSD.

Weapons

Lethal weapons of any type (hand-guns, rifles, shotguns, knives, etc.) are NOT permitted on campus. Possession of a New York State pistol permit does not allow you the privilege of carrying a weapon while you are on NCCC grounds. Possession of such weapons on campus can lead to disciplinary action by the Vice President of Student Services; or criminal charges, in the case of illegal weapons.

Critical Incident Response Procedures

The College maintains and tests a Critical Incident Response Plan (CIRP). The (CIRP) utilizes the communications methods noted in the “Timely Warnings and Emergency Notifications to the Campus Community” section below. The NCCC Emergency Notification System is a primary communication method. The system is tested at least annually. Prior to each annual test, notification is sent to the community announcing when the test will occur, delineating the parameters of the test, advising the community how to participate in the NCCC Emergency Alert program and advising the community how and where to comment on the testing process.

Timely Warnings and Emergency Notifications to the Campus Community

What Warrants a “Timely Warning” or “Emergency Notification”?

Timely Warnings shall be issued whenever a Clery Crime that is considered to represent a serious or continuing threat to students and employees is reported to CPSD or a local police agency and has occurred within NCCC’s Clery Geography. Whenever a timely warning is sent it shall be sent to the entire community.

Emergency Notifications shall be issued when a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occur on the campus. As appropriate, emergency notifications may be targeted at only a segment or segments of the campus community that is at risk. Emergency Notifications will be issued without delay, taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgement of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Chief of Campus Public Safety, or in their absence a designee, in conjunction with the President of the College and/or other campus and non-campus officials as appropriate, shall confirm the existence of a situation that may warrant a warning or notification and determine if a timely warning or emergency notification is warranted and the extent of the notification as appropriate. In addition to criminal incidents emergency notifications may be issued in situations such as, but not limited to:

1. Safety Related Issues:

- An incident that occurs on any of our campuses that affects the personal safety and security of our population.
- An incident that occurs in close proximity of the College’s two campuses that may potentially affect the personal safety and security of our student, faculty and staff populations.

2. Health Related Issues:

- A member of our population is diagnosed with a serious or life threatening communicable/infectious disease.
- Evidence of bio-terrorism.

The only reason an immediate notification for a confirmed emergency or dangerous situation would not be issued is if doing so will compromise efforts to: assist a victim, contain the emergency, respond to the emergency, or otherwise mitigate the emergency.

Ways to communicate these issues:

For Safety Related Issues:

The following methods can be used to get the word out. Methods of communication will be chosen based on the nature of the incident. A decision will be on notification methods by the Chief of Public Safety or their designee.

- E-mail to all students and/or faculty/staff
- Postings on building monitors
- Public address announcement
- Posting of notification on the College web site
- NCCC Emergency Alert in the case of a critical campus wide emergency

For Health Related Issues:

The following methods can be used to get the word out. Methods of communication will be chosen based on the nature of the incident

- Letters to students and/or parents
 - Communication to parents is extremely minimal - most likely done in cases of measles, mumps, or rubella.
Viral Meningitis would be communicated to the parents whose students are directly affected.
- Letters to faculty and staff, if appropriate
- Posting of notification on the College's website at: www.niagaracc.suny.edu
- Texts to students if warranted

For information that is believed to be of interest or concern to the entire NCCC population, the Vice President of Administration will typically notify the President's Office in advance of sending a campus wide notification.

NCCC Emergency Alert

Everbridge, Inc. (NASDAQ: EVBG) is a global software company that provides enterprise software applications for automating and accelerating an organizations' operational response to critical events in order to Keep People Safe and Organizations Running™. During public safety threats, **Everbridge Mass Notification with Incident Communications** enables enterprises and governmental entities to send notifications to individuals or groups to keep them informed before, during and after critical events. The NCCC Emergency Alert is capable of sending users text messages and emails. These options will only be used in the event of an on-campus emergency, an unscheduled College closing, or a delay of or cancellation of classes due to, for example, severe inclement weather.

The system will allow the College to communicate on matters of **CRITICAL EMERGENCIES** to all members of the College community. Students and all College employees have automatically been enrolled in the emergency management system. Any information that was provided to the College will be used as a means of communicating with the student or staff or faculty member. Students and employees may verify the information provided or add to the information.

Campus Security Authorities

NCCC has designated certain administrators and staff as “Campus Security Authorities” in recognition that many students, faculty and staff may be hesitant about reporting crimes to PSD, and may be more inclined to report incidents to non-law enforcement administration and staff instead.

Campus Security Authorities are charged with reporting to the appropriate law enforcement personnel, either CPSD, local police, or to any official or office which should be informed of the crime or complaint due to the nature of the crime or complaint, those allegations of Clery Act crimes that the Campus Security Authority concludes are made in good faith. A “Campus Security Authority” is not responsible for determining whether a crime took place as that is the function of the PSD or the local police department and its investigatory process.

A Campus Security Authority is required to report all allegations to law enforcement personnel, even if the Campus Security Authority was told of a crime in the context of providing emotional support or health care support. The allegations will be reported whether or not the victim chooses to file a report with the CPSD, local law enforcement, or to any official or office which should be informed of the crime or complaint.

Advocates, mental health counselors, and pastoral counselors at the College are not Campus Security Authorities, and are therefore exempt from disclosing or reporting allegations of crimes and incidents. However, to be exempt from the Clery Act reporting requirements, the counselor must be acting in their professional role of mental health counselors at the College. For example, a Vice President who has PhD in psychology is not acting in the counseling role, but rather as a Vice President; and a PhD student in psychology working in the counseling center as part of his/her education and training is acting in the counseling role. Advocates and mental health counselors are trained in the procedures for reporting crimes and the procedures for reporting crimes confidentially. The College encourages them to inform their clients of the procedures in accordance with their professional judgement, given the individual victim and circumstances before them.

Niagara County Community College designates the following as “Campus Security Authorities”:

- Vice President of Administration
- Vice President of Student Services
- Vice President of Academic Affairs
- Senior Staff in Human Resources
- Academic Advisors
- Faculty Advisors
- Professional staff in Athletics including coaches
- Supervisor of College Nursing Services
- Director of Housing
- Resident Assistants
- Student Life Administrators
- Chief Diversity and Equity Officer

Security of Campus Buildings

Residence Halls

Each year, the College Association along with Student Housing has enacted many programs to enhance the security of the residence. These initiatives include:

- Security viewing holes on residence hall room doors
- Key fob at each entrance doors
- Entrances secured 24 hours per day
- If fob is lost it is deactivated when reported
- Emergency blue lights located in front and back of building
- Random security patrols on all floors during evening
- Director of Housing and Residence Life Assistants are on duty at all times that students are in residence
- Security cameras strategically placed at entrances
- Throughout the year, Residential Life staff conducts programs relating to personal safety. The Campus Safety Advisory Committee meets regularly to recommend safety improvements to the Vice President of Administration and the Chief of Campus Public Safety.

Other Campus Buildings, Academic and Non-Academic

Most campus facilities, with the exception of residence hall, are open to the public during the day and evening hours when classes are in session. The residence hall is locked twenty-four hours a day, seven days a week, with card access for residents and other authorized individuals. The general public is encouraged to attend cultural, athletic and other activities on campus with access limited to the facilities in which the events take place.

At night and during periods of time when classes are not in session, College buildings are generally locked. Administrators and essential personnel with appropriately issued keys and access cards are allowed access to the buildings. Campus employees with essential positions are issued keys. They are responsible for reporting missing and stolen keys.

Public Safety Programs and Procedures

Safety and security on campus is built on a strong foundation that includes:

1. Community Policing - PSD strives to develop and maintain a positive relationship with all members of the NCCC family with a supportive community-oriented approach to law enforcement.
2. Individual Responsibility - Every member of the College community is responsible for his/her own safety by taking simple, common sense precautions and reporting incidents to the police and other campus authorities.
3. One of our most important safety programs, the Escort Service, is operated by CPSD who will provide a mobile escort as a positive contribution to safety efforts on campus.

Sexual Misconduct/VAWA (Violence against Women Act) Notice

Niagara County Community College (NCCC) is committed to creating and maintaining an educational environment free from all forms of sex discrimination, including sexual misconduct. Any act involving sexual harassment, violence, coercion, and intimidation will not be tolerated. Specifically, NCCC strictly prohibits the offenses of domestic violence, dating violence, sexual assault, and stalking. These acts have a real impact on the lives of victims. They not only violate a person's feelings of trust and safety, but they can also substantially interfere with a student's education. It is the policy of SUNY and NCCC that, upon learning that an act of sexual misconduct has taken place, immediate action will be taken to address the situation and punish the perpetrator. This includes working with state and local law enforcement to bring possible criminal charges, seeking disciplinary action through the College, and enforcing mandatory transcript notifications so other institutions are on notice of the offense committed. NCCC encourages the reporting of sexual misconduct that is prompt and accurate. This allows the NCCC community to quickly respond to allegations and offer immediate support to the victim. NCCC is committed to protecting the confidentiality of victims, and will work closely with students who wish to obtain confidential assistance regarding an incident of sexual misconduct. Certain professionals at the College are permitted by law to offer confidentiality. Those who do not maintain the privilege to offer confidentiality are expected to keep reports private to the extent permitted under the law and College policy. This means that they may have to report to college officials, but will not broadcast the information beyond what is required by law and policy. All allegations will be investigated promptly and thoroughly, and both the victim and the accused will be afforded equitable rights during the investigative process.

It is the collective responsibility of all members of the NCCC community to foster a safe and secure campus environment. In an effort to promote this environment and prevent acts of sexual misconduct from occurring, NCCC engages in ongoing prevention and awareness education programs. All members of the NCCC community must participate in ongoing campaigns and trainings focused on the prevention of sexual misconduct on campus.

This policy applies to all members of the NCCC community, including students, faculty, staff, visitors, independent contractors, and other third parties who are on campus and involved in an incident of sexual misconduct (this can be someone who witnessed an incident or who wishes to report an incident on behalf of another). The policy applies to these parties regardless of sexual orientation or gender identity.

This policy prohibits all forms of sexual misconduct. This broad term includes, but is not limited to, acts of sexual harassment, sexual violence, sexual coercion, sexual threats or intimidation, domestic violence, dating violence, sexual assault, stalking, and cyber-stalking.

Options for Confidentially Disclosing Sexual Violence

The State University of New York and Niagara County Community College want you to get the information and support you need regardless of whether you would like to move forward with a report of sexual violence to campus officials or the police. You may want to talk with someone about something you observed or experienced, even if you are not sure that the behavior constitutes sexual violence. A conversation where questions can be answered is far superior to keeping something to yourself. Confidentiality varies, and this document is aimed at helping you understand how confidentiality applies to different resources that may be available to you.

In this Policy:

- Privileged and Confidential Resources
- Privacy versus Confidentiality
- Requesting Confidentiality: How the College Will Weigh the Request and Respond
- Public Awareness/Advocacy Events
- Anonymous Disclosure
- Institutional Crime Reporting

Privileged and Confidential Resources:

Individuals who are confidential resources will not report crimes to law enforcement or college officials without your permission, except for extreme circumstances, such as a health and /or safety emergency. At Niagara County Community College, this includes:

- Niagara County Community College Wellness Center Personal Counselors at:
<https://www.niagaracc.suny.edu/wellness/counseling/>

Wellness Center- Personal Counseling
Science Building- C122
3111 Saunders Settlement Road
Sanborn, NY 14132
(716) 614-6275

Off-campus options to disclose sexual violence confidentially include (note that these outside options do not provide any information to the campus):

- Off campus counselors and advocates. Crisis services will generally maintain confidentiality unless you request disclosure and sign a consent or waiver form. More information on an agency's policies on confidentiality may be obtained directly from the agency.

The New York State Office of Victim Services may be able to assist in compensating victims/survivors for health care and counseling services, including emergency compensation. More information may be found by calling 1-800-247-8035. Options are explained here: **<http://www.ovs.ny.gov/>**

Note that even individuals who can typically maintain confidentiality are subject to exceptions under the law, including when an individual is a threat to themselves or others and the mandatory reporting of child abuse.

Privacy versus Confidentiality:

Even College offices and employees who cannot guarantee confidentiality will maintain your privacy to the greatest extent possible. The information you provide to a non-confidential resource will be relayed only as necessary to investigate and/or seek a resolution and to notify the Title IX Coordinator or designee, who is responsible under the law for tracking patterns and spotting systemic issues. NCCC will limit the disclosure as much as possible, even if the Title IX Coordinator determines that the request for confidentiality cannot be honored.

Requesting Confidentiality: How NCCC will Weigh the Request and Respond:

If you disclose an incident to a College employee who is responsible for responding to or reporting sexual violence or sexual harassment, but wish to maintain confidentiality or do not consent to the institution's request to initiate an investigation, the Title IX Coordinator must weigh your request against our obligation to provide a safe, non-discriminatory environment for all members of our community, including you.

We will assist you with academic, housing, transportation, employment, and other reasonable and available accommodations regardless of your reporting choices. While reporting individuals may request accommodations through several college offices, the following office can serve as a primary point of contact to assist with these measures:

Vice President of Student Services
Notar Administration Building
Room A106
3111 Saunders Settlement Road
Sanborn, NY 14132
(716) 614-6240

We may also take proactive steps, such as training or awareness efforts, to combat sexual violence in a general way that does not identify you or the situation you disclosed. We may seek consent from you prior to conducting an investigation. You may decline to consent to an investigation, and that determination will be honored unless the College's failure to act does not adequately mitigate the risk of harm to you or other members of the College community. Honoring your request may limit our ability to meaningfully investigate and pursue conduct action against an accused individual. If we determine that an investigation is required, we will notify you and take immediate action as necessary to protect and assist you.

When you disclose an incident to someone who is responsible for responding to or reporting sexual violence or sexual harassment, but wish to maintain confidentiality, the College will consider many factors to determine whether to proceed despite that request. Factors include, but are not limited to:

- Whether the accused has a history of violent behavior or is a repeat offender;
- Whether the incident represents escalation, such as a situation that previously involved sustained stalking
- The increased risk that the accused will commit additional acts of violence
- Whether the accused used a weapon or force
- Whether the reporting individual is a minor
- Whether we possess other means to obtain evidence such as security footage, and whether the report reveals a pattern of perpetration at a given location or by a particular group

If the College determines that it must move forward with an investigation, the reporting individual or victim/survivor will be notified and the College will take immediate action as necessary to protect and assist them.

Public Awareness/Advocacy Events:

If you disclose a situation through a public awareness event such as "Take Back the Night," candlelight vigils, protests, or other public event, the College is not obligated to begin an investigation. The College may use the information you provide to inform the need for additional education and prevention efforts.

Anonymous Disclosure: An anonymous form, Report a Sexual Assault Today, is available on the website provided below.
<http://www.niagaracc.suny.edu/sexual-assault/>

YWCA of Niagara Frontier 24/7 Rape Crisis/Domestic Violence helpline: (716) 433-6716. The helpline is for crisis intervention, resources, referrals, and the ability to meet with a advocate.

New York State Hotline for Sexual Assault and Domestic Violence: 1-800-942-6906. The Hotline is for crisis intervention, resources and referrals and is not a reporting mechanism.

Institutional Crime Reporting

Reports of certain crimes occurring in certain geographical locations will be included in the College Clery Act Annual Security & Fire Safety Report in an anonymized manner that neither identifies the specifics of the crime or the identity of the reporting individual or the victim/survivor.

Campus Public Safety Department
3111 Saunders Settlement Road
Sanborn, NY 14132
(716)614-6400

Niagara County Community College is obligated to issue timely warnings of Clery Act crimes occurring within relevant geography that represent a serious or continuing threat to students and employees (subject to exceptions when potentially compromising law enforcement efforts and when the warning itself could potentially identify the reporting individual or victim/survivor). A reporting individual will never be identified in a timely warning.

The Family Education Rights and Privacy Act allows institutions to share information with parents when (1) there is a health or safety emergency, or (2) when the student is a dependent on either parents' prior year federal income tax return. Generally, NCCC will not share information about a report of sexual violence with parents without the permission of the reporting individual.

Policy for Alcohol and/or Drug Use Amnesty in Sexual and Interpersonal Violence

The health and safety of every student at the State University of New York and its community colleges is of utmost importance. Niagara County Community College (NCCC) recognizes that students who have been drinking and /or using drugs (whether such use is voluntary or involuntary) at the time that the violence, including but not limited to domestic violence, dating violence, stalking, or sexual assault occurs may be hesitant to report such incidents due to fear of potential consequences for their own conduct. NCCC strongly encourages students to report incidents of domestic violence, dating violence, stalking, or sexual assault to institution officials. A bystander acting in good faith or a reporting individual acting in good faith that discloses any incident of domestic violence will not be subject to NCCC's code of conduct action for violations of alcohol and /or drug use policies occurring at or near the time of the commission of the domestic violence, dating violence, stalking, or sexual assault.

Note: This policy covers personal drug use whether intentional or accidental. There is not amnesty for drug sale, distribution, or for drugging another individual

Prevention Efforts

NCCC attempts to foster a safe living, learning, and working environment for all members of the campus community. To accomplish this, NCCC considers the educational programming that addresses all aspects of domestic violence, dating violence, sexual assault, and stalking (safety precautions and prevention, reporting, medical and counseling services, the NCCC discipline systems, academic schedules, living arrangement, etc.), the campus response to sexual violence, domestic violence, dating violence, and instances of stalking, and physical surroundings throughout the campus community.

Sexual Offender Registry

The Sex Offender Registration Act requires the Division of Criminal Justice Services (DCJS) to maintain a Sex Offender Registry. The Registry contains information on sex offenders classified according to their risk of re-offending: low-risk (Level 1), moderate-risk (Level 2) and high-risk (Level 3). The Act requires that the Division also maintain a Subdirectory of Level 3 Sex Offenders. The DCJS Sex Offender Registry site may be found on the web and contains their Subdirectory of Level 3 Sex Offenders as well as other information regarding New York State's Sex Offender Registry.

Sex offenders registered in New York are now required to notify the Registry of any institution of higher education at which they are, or expects to be, whether for compensation or not, enrolled, attending or employed, and whether such sex offender resides or expects to reside in a facility operated by the institution. Changes in status at the institution of higher education must also be reported to the Registry no later than ten days after such change.

The Division of Criminal Justice Services' Sex Offender Registry may be found at:

Risk Reduction Tips

With no intent to victim blame and recognizing that only rapists are responsible for rape, the following are some strategies to reduce one's risk of sexual assault or harassment.

- **Be aware** of your surroundings. Knowing where you are and who is around you may help you find a way to get out of a bad situation.
- Try to **avoid isolated areas**. It is more difficult to get help if no one is around.
- **Walk with purpose**. Even if you don't know where you are going, act like you do.
- **Trust your instincts**. If a situation or location feels unsafe or uncomfortable, it probably isn't the best place to be.
- **Try not to load yourself down** with packages or bags as this can make you appear more vulnerable.
- **Make sure your cell phone is with you** and charged and that you have cab money.
- **Don't allow yourself to be isolated** with someone you don't trust or someone you don't know.
- **Avoid putting music headphones in both ears** so you can be more aware of your surroundings, especially if you are walking alone.
- **When you go to a social gathering, go with a group of friends**. Arrive together, check in with each other throughout the evening, and leave together. Knowing where you are and who is around you may help you find a way out of a bad situation.
- **If you feel unsafe** in any situation, go with your gut instinct. If you see something suspicious, contact law enforcement immediately (local law enforcement can be reached by dialing 9-1-1 in most areas of the U.S.).
- **Don't leave your drink unattended** while talking, dancing, using the restroom, or making a phone call. If you've left your drink unattended, get new one.
- **Don't accept drinks from people you don't know** or trust. If you choose to accept a drink, go with the person to the bar to order it, watch it being poured, and carry it yourself. At parties, don't drink from the punch bowls or other large, common open containers.
- **Watch out for your friends and vice versa**. If a friend seems out of it, is way too intoxicated for the amount of alcohol they've had, or is acting out of character, get him or her to a safe place immediately.
- **If you suspect you or a friend has been drugged, contact law enforcement immediately** (local law enforcement can be reached by calling 9-1-1 in most areas of the U.S.). Be explicit with doctors so they can give you the correct tests.

If you need to get out of an uncomfortable or scary situation here are some things that you can try:

- **Remember that being in this situation is not your fault.** You did not do anything wrong, it is the person who is making you uncomfortable that is to blame.
- **Be true to yourself.** Don't feel obligated to do anything you don't want to do. "I don't want to" is always a good enough reason. Do what feels right to you and with what you're comfortable with.
- **Have a code word with your friends or family** so that if you don't feel comfortable you can call them and communicate your discomfort without the person you are with knowing. Your friends or family can then come to get you or make up an excuse for you to leave.
- **Lie.** If you don't want to hurt the person's feelings it is better to lie and make up a reason to leave than to stay and be uncomfortable, scared, or worse. Some excuses you could use are: needing to take care of a friend or family member, not feeling well, having somewhere else you need to be, etc.
- **Try to think of an escape route.** How would you try to get out of the room? Where are the doors? Windows? Are there people around who might be able to help you? Is there an emergency phone nearby?
- **If you and/or the other person have been drinking,** you can say that you would rather wait until you both have your full judgment before doing anything you may regret later.

Definitions - Clery Violence Against Women Act

Clery Definitions

Dating Violence

Dating violence is any act of violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the victim's statement and with consideration of the type and length of the relationship and the frequency of interaction between the persons involved in the relationship. Two people may be in a romantic or intimate relationship, regardless of whether the relationship is sexual in nature; however, neither a casual acquaintance nor ordinary fraternization between two individuals in a business or social context shall constitute a romantic or intimate relationship. This definition does not include acts covered under domestic violence.

Domestic Violence

Domestic violence is any violent felony or misdemeanor crime committed by a current or former spouse or intimate partner of the victim, a person sharing a child with the victim, or a person cohabitating with the victim as a spouse or intimate partner.

Stalking

The term stalking means intentionally engaging in a course of conduct, directed at a specific person, which is likely to cause a reasonable person to fear for his or her safety or the safety of others or cause that person to suffer substantial emotional damage. Examples include, but are not limited to, repeatedly following such person(s), repeatedly committing acts that alarm, cause fear, or seriously annoy such other person(s) and that serve no legitimate purpose, and repeatedly communicating by any means, including electronic means, with such person(s) in a manner likely to intimidate, annoy, or alarm him or her.

Consent

“Consent” also known as “Affirmative Consent” means a knowing, voluntary, and mutual decision among all participants to engage in sexual activity. Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in the sexual activity. Silence or lack of resistance, in and of itself, does not demonstrate consent. The definition of consent does not vary based upon a participant’s sex, sexual orientation, gender identity, or gender expression.

- Consent to any sexual act or prior consensual sexual activity between or with any party does not necessarily constitute consent to any other sexual act.
- Consent is required regardless of whether the person initiating the act is under the influence of drugs and/or alcohol.
- Consent may be initially given but withdrawn at any time.
- Consent cannot be given when a person is incapacitated, which occurs when an individual lacks the ability to knowingly choose to participate in sexual activity. Incapacitation may be caused by the lack of consciousness or being asleep, being involuntarily restrained, or if an individual otherwise cannot consent. Depending on the degree of intoxication, someone who is under the influence of alcohol, drugs, or other intoxicants may be incapacitated and therefore unable to consent.
- Consent cannot be given when it is the result of any coercion, intimidation, force, or threat of harm.
- When consent is withdrawn or can no longer be given, sexual activity must stop.

What is Coercion?

Coercion is the use of force, through threats, pressure, begging, blackmail, or incapacitation (alcohol/ drugs), in order to get someone to do something and can range from being subtle to obvious. Methods of coercion include but are not limited to:

- Encouraging someone to disregard personal boundaries
- Encouraging someone to drink alcohol
- Actively pressuring someone to engage in sexual behavior
- Using guilt or pressure to get someone to engage in sexual behavior
- Threatening harm
- Using physical harm
- Using emotional pressure to get what you want

You are being coerced if:

- You feel like you have no choice
- You face potential social consequences if you don't do what is asked
- You are relentlessly pressured
- You feel threatened or afraid of what might happen if you resist
- A person abuses authority and rank to get you to comply
- A person continues pressure after you have said “no”

NCCC

Sexual Assault and Rape

Niagara County Community College does not condone any form of sexual assault committed by any member of the college community. Sexual assaults are crimes of violence. Men and women of the campus community who commit these crimes are subject to severe sanctions pursuant to the penal law of the state of New York, through the campus judicial system, or college procedures; as established through the collective bargaining agreements, Board of Trustees policy, and/ or the Student Code of Conduct. Internal sanctions may include suspension or expulsion of students, required leave, or terminations of employment.

Sexual assault incidents shall be reported to the Public Safety Department (PSD). When a survivor reports an incident, employees specially trained to provide assistance will be contacted immediately upon their request. These specially trained employees may include the College Nurse, a Licensed Mental Health Counselor, a victim advocate from the YWCA, the Director of Housing, the Title IX Coordinator and/or a representative of the PSD. Upon approval of the survivor, immediate medical and psychological treatment will be provided. The survivor will be advised of their rights to initiate judicial proceedings on campus including the possibility of initiating the Title IX Grievance process, as well as the right to utilize law enforcement agencies. If the assault occurred off campus-owned or controlled property and the alleged perpetrator is a member of the college community, the college may enforce established disciplinary procedures as deemed necessary to protect the institution and those affiliated members. Allegations of sexual assault or rape occurring off campus should be reported to the local police department, NYS Police, or the Niagara County Sheriff's Office by dialing 9-1-1.

Additionally, allegations of sexual assaults can be reported to any of the following:

- Office of Human Resources, Notar Administration Building, A261, (716) 614-5951
- Title IX Coordinator, Notar Administration Building, A-261, (716) 614-6295
- Vice President of Student Services, Notar Administration Building, A- 106, (716) 614-6240

What to do if you are Sexually Assaulted

If you have been hurt by an acquaintance, partner, family member or stranger, it was not your fault. The NCCC Wellness Center, (716) 614-6275, provides free and confidential services to NCCC students and employees who have been hurt by sexual assault, relationship violence, and stalking. If you are on campus the YWCA of Niagara Frontier 24-hour Rape Crisis/Domestic Violence hotline (716) 433-6716 also provides free and confidential services to persons hurt by sexual assault, relationship violence, and stalking. Below you will find information about sexual assault and services available for students.

If you have been Sexually Assaulted

Get to a safe location. Below are services available for advocacy/counseling, medical assistance, evidence collection and reporting options.

Tell a person who will support you and/or contact the 24/7 YWCA Rape Crisis/Domestic Violence hotline at: (716) 433-6716 (Call or Text) who will dispatch an advocate to the college or housing to assist you.

The NCCC Wellness Center provides assistance for NCCC students that are survivors of violence. They can answer questions, offer emotional support, and provide referrals. You can also make an appointment with a counselor by visiting the Wellness Center, located in the Science Building, Room C-122, or by calling (716) 614-6275.

Have your medical needs attended to in the emergency room.

Taking care of your physical and medical state can play an important role in healing. You may have internal and /or external injuries as a result of the assault requiring medical care. Additionally, you may want to explore options for preventing sexually transmitted infections/disease (STI/STD) and /or pregnancy.

Emergency Contraception (EC) is available at area pharmacies, while it is "over the counter" and does not require an Rx, you will have to ask the pharmacist to obtain EC. There is no 'right' place to go for medical attention after an assault. Seek the services that best match your needs and comfort level, your own health care practitioner, a staff member at the Wellness Center, or the local emergency room (SANE Nurse).

If you are a housing resident, the closest hospital is Eastern Niagara Hospital in Lockport and it offers 24 hr coverage with specially trained nurses (SANE Nurse) that will explain the options for having a sexual assault exam with collection of evidence, along with 24 hr coverage for an advocate to provide you with follow-up information and referrals. You have the right to decline services if you do not want an advocate for the collection of evidence.

What you should know about sexual assault

Several studies show that 50 to 60 percent of women surveyed have reported that they were victims of some sort of sexual aggression. One survey of college women indicated that one out of four in this age group had a sexual encounter that would legally constitute a rape. A similar survey of men indicated that one man in twelve admitted to sexual encounters that could be defined as rape, or attempted rape; yet none of these men identified himself as a rapist.

Sexual assaults occur not only between strangers but also between men and women who know each other. Acquaintance rape- sometimes called date rape- is forced, manipulated or coerced sexual intercourse by a man or woman who is known to the victim. Acquaintance rape occurs all over the country within all socioeconomic and age groups. However, most victims are women between the ages of 15 and 24.

More Facts:

1. Most attacks are not reported. According to surveys on rape, 90 percent of the victims never report it to the authorities. Many victims do not associate an attack as a rape when the rapist is someone they know. In some cases, victims believe they may have caused the rape by consenting to a date, and then getting caught in a compromising situation. They may find it very difficult to report the attacker if he/she has been a friend, and may fear that their friends will think he/she "led him on" in some way. Some friends believe their friends will not believe them at all.
2. Victims of acquaintance rape tend to feel ashamed, guilty and depressed. Whether they acknowledge their experience as a rape or not, 30 percent of women identified in the study of college students as rape victims contemplated suicide after the incident. They feel betrayed and lose confidence in their judgment because they did not recognize the acquaintances as a potential rapist.
3. Acquaintance rape often results from poor communication. Some misunderstand words and actions and assume that when he/she says "no", it really means "yes". What a person says and how a person behaves may create conflicting messages. Society has led men and women to believe that a women's role is to be passive, and a man should be aggressive. Many people feel that a man has a right to be more sexually aggressive when he has dated a woman for a long time; if they have had previous sexual encounters; or if she has led him on; in some manner.
4. Society further conditions men and women to send strong nonverbal messages about their sexuality by the clothes they wear, the tone of their voice, their body language and eye contact.

How to be an Active Bystander

Bystanders play a critical role in the prevention of sexual and relationship violence. They are individuals who observe violence or witness the conditions that perpetuate violence. They are not directly involved but have the choice to intervene, speak up, or do something about it. We want to promote a culture of community accountability where bystanders are actively engaged in the prevention of violence without causing further harm. We may not always know what to do even if we want to help. Below is a list of some ways to be an active bystander. If you or someone else is in immediate danger, dial 9-1-1. This could be when a person is yelling at or being physically abusive towards another and it is not safe for you to interrupt.

- Watch out for your friends and fellow students/employees. If you see someone who looks like they could be in trouble or need help, ask if they are ok.
- Confront people who seclude, hit on, try to make out with, or have sex with people who are incapacitated.
- Speak up when someone discusses plans to take advantage of another person.
- Believe someone who discloses sexual assault, abusive behavior, or experience with stalking.
- Refer people to on or off campus resources listed in this document for support in health, counseling, or with legal assistance.

In compliance with the Drug-free Schools and Campus Act and the Drug-free Workplace Act, this policy is intended to inform all members of the College community of the College's policy concerning alcohol and other drugs. This policy applies to all student and to all employees (faculty and staff)

Campus Drug & Alcohol Policy

Niagara County Community College is committed to promoting a drug-free campus environment and elimination of drug and alcohol abuse for its students and employees.

Consistent with the Drug-Free and Communities Act Amendments of 1989 (Public Law 101-226), all students and employees are advised that individuals who violate federal, state or local laws and campus policies are subject to College disciplinary action and criminal prosecution.

The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in and on Niagara County Community College owned or controlled property. Any Niagara County Community College employee determined to have violated this policy may be subject to disciplinary action up to and including removal. No employee will report to work while under the influence of illegal drugs. Violation of these rules by an employee will be reason for mandatory evaluation/treatment for a substance use disorder or for disciplinary action up to and including removal.

This policy includes the prohibition against use, manufacture, possession or distribution of marijuana, whether or not for medical use and whether or not the individual possesses a certificate of medical need, since such use, manufacture possession or distribution of marijuana continues to be a violation of federal law.

Any student determined to have violated this policy may be subject to disciplinary action as imposed through the Student Code of Conduct procedures. No student shall report to the College while under the influence of illegal drugs. The use of alcohol while on Niagara County Community College owned or controlled grounds is absolutely prohibited except when authorized by the College for approved College functions.

Students and employees should be aware there are significant psychological and physiological health risks associated with the use of illicit drugs and alcohol. Physical addiction, loss of control and withdrawal syndrome as well as serious damage to vital organs of the body can result from drug and alcohol abuse.

Possession of one-quarter ounce or more is a felony. Sale of any amount of hashish, no matter how small, is a felony.

Cocaine and Crack

Possession of any amount, no matter how small, is the most serious class of misdemeanor punishable by up to 12 months in a county jail. Possession of 500 milligrams or more is a class D felony punishable by 2.3 to 7 years in a state correctional facility. Sale of any amount is a felony.

Alcohol Policy and Enforcement Guidelines for Niagara County Community College

General Policy for Use of Alcohol on Campus

1. The College adheres to and enforces all federal, state and local laws concerning alcohol. Alcohol may only be sold and served at pre-approved social functions where the Alcohol Use Registration Form has been approved by the College Association.
2. No student under the age of twenty-one may possess or consume alcoholic beverages anywhere on campus.
3. Alcoholic beverages are not permitted in any student housing. These areas are designated as alcohol free. See Student Housing Handbook for more information.
4. The following are prohibited under the College's alcohol policy: binge drinking; driving under the influence; kegs and beer balls, whether empty or full, tapped or untapped; spiked punch; Jell-O shots containing alcohol; drinking games or any behavior that encourages or contributes to excess alcohol consumption; carrying open containers in any public area of campus; possessing, consuming and storage of alcohol are prohibited in all public areas, e.g. lounges, hallways, stairwells, common bathrooms, or outdoor areas.

Summary of Policies Governing the Use of Alcohol on All Niagara County Community College Properties

1. No alcohol may be consumed in academic buildings, on Athletic Fields, in the Physical Education complex, at the Niagara Falls Culinary Art Institute or at the Student Housing, except at "alcohol approved" social functions. An alcohol approved social function is one where the Alcohol Use Registration Form is filled out and approved by the College Association.
2. Under New York law, only persons twenty-one (21) years of age or older are legally entitled to purchase, be sold, given, or served alcohol. A person under 21 years of age may not possess or consume alcoholic beverages at any time on the College campus.
3. Under New York law, persons under the age of 21 are prohibited from possessing any alcoholic beverages with intent to consume the beverage. Violators are subject to a fine up to \$50.00 per offense. Authorized law enforcement personnel may seize alcoholic beverages involved in alleged violations of this law.
4. New York law further provides that any person, other than a parent or guardian, who purchases alcohol for, procures for, or gives alcohol to anyone under 21 years of age is guilty of a misdemeanor.
5. Under New York law, anyone under 21 years of age who uses fraudulent proof of age to obtain alcohol is guilty of a misdemeanor. This violation is punishable by a fine of up to \$100.00 and a community service requirement of up to thirty (30) hours.
6. The Director of Housing shall interpret the alcohol policy at student housing. The Vice President for Student Services is responsible for implementing and interpreting the alcohol use policy.

Alcohol Policy Enforcement

1. Within NCCC's policies and regulations, the College permits students of legal drinking age to possess and consume alcoholic beverages at special events that had prior administrative approval. However, individuals under 21 years of age may do neither
EXPECTATION: College administrators, Resident Housing Officials and PSD (herein referred to as College officials) are expected to clearly explain to students what action will be taken in dealing with alcohol policy violations.

When encountering instances of alcohol policy violations, College officials are expected to confront the violators. Information should be provided as to what behavior is inappropriate and what the individual is expected to do to be in compliance with the campus alcohol policy. If the individual is cooperative and complies with the request, the incident may be considered resolved. If the individual is uncooperative or refuses to comply, College officials responsible for the building or area should be contacted. If the policy administrator is unavailable or the individual continues to be uncooperative, the Campus Public Safety Department should be summoned. The CPSD will formally identify the violator and state the campus expectation for compliance with the College's alcohol policy. In such cases, an Incident Report will be completed by the CPSD and the individual referred to the campus Judicial System. The CPSD reserve the right to have the person(s) arrested, or issued a notice to meet with the Vice President of Student Services or the Director of Student Housing if such action is deemed necessary.

2. **STAFF DIRECTIVES TO VIOLATORS:** Violators are to be instructed to dispose of the alcohol by means other than consuming it. Students may either pour the alcohol out on their own or give it to a staff member to pour out. When students pour alcohol out themselves, a College official should accompany the student to ensure proper disposal. Students are not to dispose of alcohol by consuming it, throwing it in a trash can or giving it to another person who may be 21 years of age. The College official should ask the students if they intend to comply with the request. If the students are cooperative, they can proceed to dispose of the alcohol. Internal departmental procedures for communicating and documenting such incidents should take place. It is expected that students who violate the College's alcohol policy will have the incident referred to the campus

judicial system for appropriate sanctioning. If the students are uncooperative or refuse the official's request, the Public Safety Department or law enforcement should be summoned for assistance. Again, it is expected such incidents will result in the preparation of an Incident Report and referral of the incident to the campus judicial system for alleged violation of the alcohol policy as well as non-compliance with the College Official.

3. **NOTE:** If College officials encounter an unauthorized bulk container (e.g. beer ball, box of wine, keg, or "bash") it should be removed to an area where it can be drained. Once it is drained the container and tapping equipment, as appropriate, should be returned to the students. If the students refuse to drain the bulk container, the CPSD should be summoned.

Campus Policy for Governing the Use of Alcohol in Residence Hall

All Niagara County Community College students who live in residence halls, and their visitors/guests, are subject to New York State Law and the College's policy regarding possession and consumption of alcohol, as well as specific policies governing the residence hall.

1. **Definition of Student Housing**

NCCC students have various options to live near campus. In particular, the Student Housing Village Corporation, an affiliated entity to the College Association, that manages all auxiliary functions at the College, offers NCCC students various living arrangements.

Student Housing is defined as The Student Housing Village, including outdoor areas.

2. **Alcohol Policy in the Student Housing Village**

Alcoholic beverages are never permitted in residence halls. This includes all residential areas in the Student Housing Village. Visitors or guests of students residing in these areas are not permitted to possess or consume alcohol in these areas regardless of whether they are of legal drinking age. These areas are designated as alcohol free. Web site for alcohol policy:

www.niagaracc.suny.edu/pdf/rights-and-responsibilities.pdf

3. **Alcohol Policy for Students Under 21 Years of Age Living in the Student Housing Village**

A person under 21 years of age may not possess or consume alcoholic beverages at any time on Housing property. Visitors or guests of students under 21 years of age are not permitted to possess or consume alcohol in the suite or bedroom of an underage student regardless of whether they are of legal drinking age. Alcohol containers, including empty liquor bottles, wine bottles and/or beer cans are prohibited.

4. **Alcohol Policy for Students Over 21 Years of Age Living in Student Housing**

The following regulations regarding alcohol use apply to students and visitors/guests in the Student Housing Village areas who are 21 years of age or older:

No individual student may possess alcoholic beverages, whether under the age of 21 or of the New York State legal age of 21.

Binge drinking is defined as consuming five or more drinks in about 2 hours for men or four or more drinks in the same time period for women. (www.niaaa.nih.gov/alcohol-health/overview-alcohol-consumption/moderate-binge-drinking) Binge drinking is strictly prohibited.

Individuals of legal drinking age may not provide alcohol to underage roommates, suitemates, visitors or guests.

Drinking games (e.g. beer pong) and other activities that promote the irresponsible use of alcohol are prohibited. This includes the use of alcohol paraphernalia such as funnels and ice luges.

Kegs and beer balls, whether empty or full, tapped or untapped, are prohibited. Spiked punch and Jell-O shots containing alcohol, regardless of alcohol content are also prohibited.

Behavior that encourages or contributes to alcohol consumption by another student is prohibited.

Carrying open containers of alcoholic beverages or consuming them in any public area of the campus is prohibited. This includes movement between residence hall rooms or apartments with an alcoholic beverage.

Compliance with all requests by College and/or Resident officials, including, but not limited to, Student Housing staff or CPSD, for proof of 21-year-old status is required. If there is reasonable suspicion to believe that alcohol might be in squeeze bottles, cups or other such containers, College and Student Housing staff reserve the right to approach students and hold individuals accountable under the provisions of this policy.

Possession, consumption, and storage of alcohol are prohibited in all public areas, e.g. lounges, hallways, stairwells, common bathrooms, or outdoor areas.

Driving on College property while under the influence of alcohol is strictly prohibited and will result in arrest, loss of driving privileges on campus, and possible suspension or expulsion from the College. HEALTH RISKS INFORMATION: ALCOHOL⁴

Health Risks

The following information on health risks is from the Centers for Disease Control and Prevention:

Drinking too much can harm your health. Excessive alcohol use led to approximately 95,000 deaths and 2.8 million years of potential life lost (YPLL) each year in the United States from 2011– 2015, shortening the lives of those who died by an average of 29 years. Further, excessive drinking was responsible for 1 in 10 deaths among working-age adults aged 20-64 years. The economic costs of excessive alcohol consumption in 2010 were estimated at \$249 billion, or \$2.05 a drink.

The Dietary Guidelines for Americans defines moderate drinking as up to 1 drink or less a day for women and up to 2 drinks or less in a day for men, on days when alcohol is consumed. In addition, the Dietary Guidelines do not recommend that individuals who do not drink alcohol start drinking for any reason and that if adults of legal drinking age choose to drink alcoholic beverages, drinking less is better for health than drinking more.

Excessive drinking includes binge drinking, heavy drinking, and any drinking by pregnant women or people younger than 21. Excessive alcohol use has immediate effects that increase the risk of many harmful health conditions. Over time, excessive alcohol use can lead to the development of chronic diseases and other serious problems including: High blood pressure, heart disease, stroke, liver disease, and digestive problems; Cancer of the breast, mouth, throat, esophagus, liver, and colon; Learning and memory problems, including dementia and poor school performance; Mental health challenges, including depression and anxiety; Social problems, including lost productivity, family problems, and unemployment; Alcohol dependence, or alcoholism. By not drinking too much, you can reduce the risk of these short- and long-term health risks.

HEALTH RISKS INFORMATION: MARIJUANA⁵

Health Risks

The following information on health risks is from the Centers for Disease Control and Prevention:

Marijuana is the most commonly used federally illegal drug in the United States. Marijuana use may have a wide range of health effects on the body and brain.

About 3 in 10 marijuana users may experience some form of addiction. For people who begin using before the age of 18, that number is even greater. People who are addicted to marijuana may also be at a higher risk of other negative consequences of using the drug, such as problems with attention, memory, and learning. Some people who are addicted may need to smoke more and more marijuana to get the same high. It is also important to be aware that the amount of tetrahydrocannabinol (THC) in marijuana (i.e., marijuana potency or strength) has increased over the past few decades. The higher the THC content, the stronger the effects on the brain. In addition, some methods of using marijuana (e.g., dabbing, edibles) may deliver very high levels of THC to the user.

In many cases, marijuana is smoked in the form hand-rolled cigarettes (joints), in pipes or water pipes (bongs), in bowls, or in blunts—emptied cigars that have been partly or completely refilled with marijuana. Smoked marijuana, in any form, can harm lung tissues and cause scarring and damage to small blood vessels. Smoke from marijuana contains many of the same toxins, irritants, and carcinogens as tobacco smoke. Smoking marijuana can also lead to a greater risk of bronchitis, cough, and phlegm production. These symptoms generally improve when marijuana smokers quit.

Marijuana use, especially frequent (daily or near daily) use and use in high doses, can cause disorientation, and sometimes cause unpleasant thoughts or feelings of anxiety and paranoia. Marijuana use is associated with temporary psychosis (not knowing what is real, hallucinations and paranoia) and long-lasting mental health challenges, including schizophrenia (a type of mental illness where people might see or hear things that aren't really there).

Using marijuana during pregnancy may increase the person's risk for pregnancy complications. Pregnant and breastfeeding persons should avoid marijuana.

Marijuana use has also been linked to depression and anxiety, and suicide among teens. However, it is not known whether this is a causal relationship or simply an association.

⁵ Available at CDC website: <https://www.cdc.gov/marijuana/factsheets/teens.htm> (last accessed May 25, 2022); <https://www.cdc.gov/marijuana/health-effects.html> (last accessed May 25, 2022).

HEALTH RISKS INFORMATION: MDMA⁶

Health Risks

The following information on health risks is from the National Institute on Drug Abuse:

People who use MDMA usually take it as a capsule or tablet, though some swallow it in liquid form or snort the powder. The popular nickname Molly (slang for “molecular”) often refers to the supposedly “pure” crystalline powder form of MDMA, usually sold in capsules. However, people who purchase powder or capsules sold as Molly often actually get other drugs such as synthetic cathinones (“bath salts”) instead. Some people take MDMA in combination with other drugs such as alcohol or marijuana.

MDMA increases the activity of three brain chemicals:

- Dopamine—produces increased energy/activity and acts in the reward system to reinforce behaviors
- Norepinephrine—increases heart rate and blood pressure, which are particularly risky for people with heart and blood vessel problems
- Serotonin—affects mood, appetite, sleep, and other functions. It also triggers hormones that affect sexual arousal and trust. The release of large amounts of serotonin likely causes the emotional closeness, elevated mood, and empathy felt by those who use MDMA.

Other health effects include:

- nausea
- blurred vision
- muscle cramping
- chills, and
- involuntary teeth clenching
- sweating.

MDMA's effects last about 3 to 6 hours, although many users take a second dose as the effects of the first dose begin to fade. Over the course of the week following moderate use of the drug, a person may experience irritability, impulsiveness and aggression, depression, sleep problems, anxiety, memory and attention problems, decreased appetite, and decreased interest in and pleasure from sex. It's possible that some of these effects may be due to the combined use of MDMA with other drugs, especially marijuana.

High doses of MDMA can affect the body's ability to regulate temperature. This can lead to a spike in body temperature that can occasionally result in liver, kidney, or heart failure or even death.

HEALTH RISKS INFORMATION: PRESCRIPTION OPIOIDS⁷

Health Risks

The following information on health risks is from the National Institute on Drug Abuse:

Prescription opioids used for pain relief are generally safe when taken for a short time and as prescribed by a doctor, but they can be misused.

Opioids bind to and activate opioid receptors on cells located in many areas of the brain, spinal cord, and other organs in the body, especially those involved in feelings of pain and pleasure. When opioids attach to these receptors, they block pain signals sent from the brain to the body and release large amounts of dopamine throughout the body. This release can strongly reinforce the act of taking the drug, making the user want to repeat the experience.

In the short term, opioids can relieve pain and make people feel relaxed and happy. However, opioids can also have harmful effects, including drowsiness, confusion, nausea, constipation, euphoria, and slowed breathing. Opioid misuse can cause slowed breathing, which can cause hypoxia, a condition that results when too little oxygen reaches the brain. Hypoxia can have short- and long-term psychological and neurological effects, including coma, permanent brain damage, or death. Researchers are also investigating the long-term effects of opioid addiction on the brain, including whether damage can be reversed.

People addicted to an opioid medication who stop using the drug can have severe withdrawal symptoms that begin as early as a few hours after the drug was last taken. These symptoms include muscle and bone pain, sleep problems, diarrhea and vomiting, cold flashes with goose bumps, uncontrollable leg movements, and severe cravings.

An opioid overdose occurs when a person uses enough of the drug to produce life-threatening symptoms or death. When people overdose on an opioid medication, their breathing often slows or stops. This can decrease the amount of oxygen that reaches the brain, which can result in coma, permanent brain damage, or death.

If you suspect someone has overdosed, the most important step to take is to call 911 so he or she can receive immediate medical attention. Once medical personnel arrive, they will administer naloxone. Naloxone is a medicine that can treat an opioid overdose when given right away. It works by rapidly binding to opioid receptors and blocking the effects of opioid drugs. Naloxone is available as an injectable (needle) solution, a hand-held auto-injector (EVZIO®), and a nasal spray (NARCAN® Nasal Spray).

HEALTH RISKS INFORMATION: SPECIFIC DANGERS FROM DRUG FACILITATED SEXUAL ASSAULT DRUGS⁸

Health Risks

The following information on health risks is from the National Institute of Drug Abuse:

There are three specific drugs that are commonly utilized in drug facilitated sexual assault:

Rohypnol®, Ketamine, or GHB (Gamma Hydroxybutyric Acid).

Rohypnol®

Rohypnol®, also known as flunitrazepam, is not approved in the United States, although it is available for use as a prescription sleep aid in other countries. It is most commonly found as a tablet which is consumed by swallowing (as a pill or as dissolved in a drink), or snorting. The possible short-term health effects include drowsiness, sedation, sleep, amnesia, blackout; decreased anxiety; muscle relaxation, impaired reaction time and motor coordination; impaired mental functioning and judgement; confusion; aggression; excitability; slurred speech; headache; slowed breathing and heart rate. When combined with alcohol the possible health effects include severe sedation, unconsciousness, and slowed heart rate and breathing, which can lead to death. At this time the long-term health effects of Rohypnol® are unknown. The peak concentrations of Rohypnol® in the body occur 30-90 minutes after ingestion and the effects of the drug last for approximately 12 hours. Rohypnol® stays in the body for 16 – 35 hours, however, it can be detected in hair for up to 90 days after ingestion of the drug

GHB (Gamma Hydroxybutyric Acid)

GHB is a depressant approved for use in treatment of narcolepsy, and commonly goes by the other names of Goop, liquid ecstasy, and liquid X. It is most commonly found as a colorless liquid or white powder which is consumed through swallowing, often in combination with alcohol or other beverages. Within 15-30 minutes of drinking GHB, a person begins feeling the euphoric and sedating effects of the drug, which last for about 3-6 hours. The possible short-term health effects include euphoria, drowsiness, nausea, vomiting, confusion, memory loss, unconsciousness, slowed heart rate and breath, lower body temperature, seizures, coma, and death. In combination with alcohol the possible health effects include nausea, problems with breathing, and greatly increased depressant effects. At this point in time the long-term effects of GHB are unknown. GHB can only be detected in blood for up to 4 hours and in urine for up to 12 hours. This makes it difficult to detect the presence of the drug in cases of sexual assault.

HEALTH RISKS INFORMATION: SPECIFIC DANGERS FROM DRUG FACILITATED SEXUAL ASSAULT DRUGS (CONTINUED)

Health Risks (Continued)

Ketamine

Ketamine is a dissociative drug used as a surgical anesthetic for both humans and animals, and as a prescription for treatment resistant depression under strict medical supervision. It is most commonly found in liquid or white powder and is consumed through swallowing, smoking, snorting, injections, or nasal sprays. The possible short-term health effects include problems with attention, learning, and memory; dreamlike states, hallucinations; sedation; confusion loss of memory; raised blood pressure, unconsciousness; and dangerously slowed breathing. If Ketamine is consumed with alcohol there is an increased risk of adverse effects. The possible health effects associated with long-term use include ulcers and pain in the bladder; kidney problems; stomach pain; depression; and poor memory. Ketamine is sometimes used as a date rape drug. There is a risk of HIV, Hepatitis, and other infectious diseases from shared needles.

If an individual believes they or a friend have consumed Rohypnol®, GHB, or Ketamine they should visit a local healthcare facility that can care for survivors of sexual assault and provide a Sexual Assault Forensic Examination. While receiving care the individual who has ingested the drug can request the hospital to take a urine and/or blood sample for drug toxicology testing. If the individual cannot immediately go to a hospital they should save their urine in a clean, sealable container, label the sample with date and time of collection, and place it in the refrigerator or freezer for future toxicology testing.

Hate or Bias Crimes

Niagara County Community College strives to protect all members of the college community by prosecuting bias or hate crimes that occur within the campus jurisdiction.

Hate crimes, also called bias crimes or bias-related crimes, are criminal activity motivated by the perpetrator's bias or attitude against an individual victim or group based on perceived or actual personal characteristics, such as national origin, color, race, age, religion or creed, ethnicity, gender, sexual orientation, veteran status, marital status, or disability. Hate/bias crimes are against the law and NCCC's policy. Copies of the New York Law are available at <https://ypdcrime.com/penal.law/article485.php>

Penalties for bias-related crimes are very serious and range from fines to imprisonment for lengthy periods, depending on the nature of the underlying criminal offense, the use of violence or previous convictions of the offender. Perpetrators who are students will also be subject to campus disciplinary procedures where sanctions, including dismissal, are possible.

Hate or Bias Related Incidents

In addition to preventing and prosecuting hate/bias crimes, the Vice President of Student Services and the Campus Public Safety Department may also assist in addressing bias-related activities that do not rise to the level of a crime. These activities, referred to as bias incidents and defined by the College as acts of bigotry, harassment, or intimidation directed at a member or group within the Niagara County Community College's community based on national origin, ethnicity, race, age, religion, gender, sexual orientation, disability, veteran status, color, creed, or marital status, may be addressed through the NCCC's Student Code of Conduct and College policy.

Annual Fire Safety Report

Completed in compliance with 34 CFR 668.49(b)

FOREWORD

Welcome to Niagara County Community College

Student Housing, the Vice President of Student Services and the Campus Public Safety Department are pleased to serve a diverse and vibrant academic community in Western New York. For many of our residential students, NCCC is their first living experience away from home. The challenge to our College is to provide a safe environment within which faculty, staff, students, and visitors can learn, live and work. The integral parts of our philosophy include fire safety education, engineering controls, and enforcement of campus policies, state laws and state fire codes. It is with this combination of education, engineering and enforcement, that we are able to reduce the risk of a fire event on our campus. This report will describe our fire prevention and life safety programming at the College, and will demonstrate how the three E's work together to make sure that all members of our community can return safely home without fire related injury or loss of property.

Perhaps the most important of the three E's is education. It is through life safety and fire prevention training, emergency evacuation drills, live fire training with portable fire extinguishers, tabling, and our safety manuals that the message of awareness and emergency response is disseminated throughout our community. We are excited to partner with the New York State Office of Fire Prevention and Control, the Sanborn Fire Department, and the Tri Community Ambulance in providing valuable life preserving information to our community members.

Engineering controls describe NCCC's efforts in the mandatory inspections, training and timely repairs of the sprinkler systems and addressable fire alarm systems. Engineering controls also describe the on-going testing and maintenance of fire protection systems on campus. This work ensures that these systems perform as designed in the event of a fire emergency.

Enforcement of state laws, campus regulations, and state fire codes is important in maintaining safe behaviors and buildings. NCCC's Public Safety Department (PSD) provides security services to the Student Housing Village. As such, they are responsible for maintaining order through the enforcement of state laws, some of which – arson, criminal tampering, and falsely reporting an incident – have a direct connection to fire safety. Additionally, the PSD and Housing staff work together in administering campus standards of conduct. These standards can be found in the Student Housing Handbook and the Student's Rights and Responsibilities- "Code of Conduct Responsibilities".

https://www.niagaracc.suny.edu/wp-content/uploads/2021/08/rights_and_responsibilities.pdf

Enforcement and education work together in an annual fire safety inspection by the New York State Office of Fire Prevention and Control. Every space on campus is inspected in detail on an annual basis. While code violations are cited in the inspection process, these inspections are also used as an opportunity to meet face-to-face with resident students to discuss the violations and how they impair their safety.

FIRE SAFETY EDUCATION

The Director of Housing is responsible for providing fire prevention and life safety information to the campus residence community. This training includes information about maintaining a safe cooking environment to prevent kitchen fires, about maintaining a clean apartment to prevent combustible materials from accumulating, about the importance of not tampering with the fire/smoke detectors, and the procedures for evacuation. Training is provided to all in-coming students. Training is also given to all Residence Assistants (Residence Assistants are the only “staff” who reside in the building) at the beginning of the academic year. Fire safety involves a partnership between Niagara County Community College, Housing, the New York State Office of Fire Prevention and Control, and the Sanborn Fire Department. Live portable fire extinguisher training is provided to Public Safety Officers throughout the year.

FIRE SAFETY SYSTEMS

Student Housing Village

The residence hall is equipped with addressable fire alarm systems including smoke and heat detection devices. Activated fire alarm systems notify building occupants with distinctive audible and visual notification devices. All fire alarms ring into the Niagara County Sheriff’s Office, which is monitored 24/7/365. EVERY alarm of fire is reported to the local fire department. Evacuated buildings are not re-occupied until the fire department has arrived on scene, investigated the alarm, and has given its approval to re-occupy the building.

The Student Housing Village does have a fire sprinkler system in designated areas such as common areas, mechanical areas, and the means of egress.

All hallways in the Resident Hall have emergency illumination through emergency lighting and illuminated exit signs. Fire alarm systems are inspected, tested and maintained in accordance with NFPA 72 “National Fire Alarm Code”. This work is completed by licensed contract third party.

Fire sprinkler systems and fire hydrants are inspected, tested and maintained in accordance with NFPA 25 “Standard for the Inspection, Testing and Maintenance of Water-Based Fire Protection Systems”. Inspected, tested and maintained by contract with a third party.

Fire Extinguishers are inspected by the PSD monthly and tested and maintained annually by a contract with a third party.

Emergency illumination is inspected and tested by trained Public Safety Officers and maintained by trained employees of the College Association.

EMERGENCY EVACUATION

Emergency evacuation procedures are posted on the back of every residential suite door.

Procedures:

In case of fire, immediately exit the building. Pull the manual pull station on the way out to notify other building occupants of an emergency. Report to the designated Assembly Area for accountability. The designated assembly area for the Sanborn Student Housing Village is inside the main campus snack bar.

Disabled persons on other than the ground level floor should respond to a designated Area of Refuge or fire-rated stair tower. The fire department’s first incident priority is the rescue of persons who are trapped or cannot evacuate on their own. Persons should not use the elevator as a means of egress.

Enforcement

This section of Niagara County Community College’s Annual Fire Report identifies laws, rules and regulations applicable to faculty, staff and students. These laws, rules and regulations are enforced by the New York State Division of Homeland Security and Emergency Services – Office of Fire Prevention and Control (through an annual inspection process), the Niagara County Sheriff’s Office, the Public Safety Department and Residential Life.

- Smoking
- Smoking is prohibited in all indoor College buildings, including campus residence halls. Niagara County Community College is a tobacco free campus.

<https://www.niagaracc.suny.edu/security/smoking-tobacco/>

Residence Hall Regulations Related to Fire Safety

- **Cooking.** Cooking is permitted only in residence suites kitchenette areas.
- **Appliances.** Air conditioners (air conditioning is provided), ceiling fans, microwave ovens and all other cooking appliances are prohibited. For snack preparation, the following appliances, UL approved ONLY, are permitted: pop-up toaster, closed element popcorn popper, thermostatically controlled hot pots and rice cookers, and percolator / coffeemaker.
- **Room decorations.** Combustible materials such as posters, pictures, etc. shall be limited to 20% of available wall space in each room. No combustible material shall be allowed on ceilings or on the inside of any door. Fabric, including sheets, fishnet, tap-stry, etc. used as decorations are prohibited. Ceiling decorations of all types are prohibited. Curtains must be flame resistant (per NFPA 701) as should any upholstered furniture (labeled CAL 133).

Fire Safety-Kitchen

NEVER LEAVE COOKING UNATTENDED. One may be so busy juggling all their responsibilities that it is easy to forget that something is cooking on the stovetop or in the oven. NEVER leave the kitchen area or the apartment when something is cooking, either in the oven or on top of the stove.

There are different types of fires that can occur in the kitchen; some more serious than others. Typically, the most dangerous kitchen fire is a grease fire. A grease fire occurs when oil, butter, or other greases are heated so highly that they ignite. This type of fire can cause open flames that can extend to kitchen cabinets or other items very quickly. What should you do?

Grease fires – If a grease fire is small and ONLY if you are confident you can extinguish it, turn off the burner and smother the fire with a pan lid. Make sure the lid will cover the whole fire. Never, ever, use water to extinguish grease, oil or fat fires because water can precipitate splattering that can cause burns or scalds and spread the fire. Fire extinguishers are not recommended for this type of fire either. Do not attempt to carry the pan from a grease fire outside. The pan will become too hot and the fire will easily spread.

If a grease fire should occur and you are not confident you can extinguish it, do not risk getting burned even to turn off the burner. Evacuate immediately and activate the fire alarm to notify others.

Oven fires occur inside the oven. What should you do? Close the oven door and turn off the heat source. The oven fire usually suffocates. Do not take a burning dish out of the oven. Keep stovetop, oven and microwave oven clean. Accumulated grease and food in drip pans and cooking surfaces can cause smoke the next time the appliance is used.

Dry cooking fires typically occur on the stovetop if the moisture burns off the pan and the food (or empty pan) is left to scorch and burn. This type of fire will cause a lot of heat and can damage the surrounding area with smoke. This type of fire is prevented by never leaving your cooking unattended and by turning off the burner when food is finished cooking.

Microwave fires can occur when food is left to cook in the microwave for too long a period of time. NEVER use aluminum foil or put pots and pans in the microwave. Be careful of travel mugs – aluminum mugs cannot be heated in the microwave. Aluminum will cause a microwave fire. In the event of a fire in a microwave, keep the door closed and unplug or turn off the microwave. DO NOT remove a burning object from the microwave. Keep the microwave door closed, and evacuate the building, pulling the alarm on the way out.

Appliances – Students are expected to use appliances furnished in their apartment in the appropriate manner. The student takes full responsibility for the appliance's use and functioning during their stay.

Always follow the following guidelines to prevent fire or burn related injury:

1. Use padded oven mitts when handling a hot pot or pan.
2. Heat oil slowly over moderate heat.
3. Never pour butter or oil on top of something cooking in the broiler. The broiler operates at very high heat and will ignite the grease, causing a fire.
4. Unplug small appliances such as the coffeepot or toaster when they are not in use.
5. Turn off the oven or stovetop as soon as you have finished cooking.
6. Double check that the oven and stovetop are OFF before leaving your apartment.
7. Do not store outdoor barbeque items in your apartment such as grills, charcoal or lighter fluid.

If a fire occurs that is out of your control, **EVACUATE AND PULL THE ALARM**. Never risk harm to yourself or others. The safety of your life and the lives of your fellow students is more important than any material possessions that may be lost in a fire. Lastly, if you hear the fire alarm, always evacuate the building immediately.

If a fire occurs that you are able to extinguish prior to the fire alarm sounding, residents **are to report** the incident to the Director of Housing or their Resident Assistant immediately so that inspection can be made of the area affected. The staff will determine if the fire is completely extinguished and if the building is safe. The staff will also determine if there is damage to the area that needs to be addressed in order to promote a safe living environment.

Draperies and curtains not original to the apartment should be labeled "fire resistant." Under code NFPA 701. Additionally, draperies, curtains and wall hangings of any material may not cover more than 20% of the surface.

The use of any open-flamed devices such as candles, sternos, incense, and kerosene lamps is prohibited. The following are also prohibited: natural trees, wreaths, paneling, wallpaper, or similar coverings, open-element or liquid fueled (kerosene, propane, gas) space heaters, and excessive trash accumulations.

Cooking and Use of Outside Areas

The use of charcoal burners and other open-flame cooking devices shall not be operated within 30 feet of the buildings. Residents are responsible for themselves and their guests in ensuring any outside gathering results in an expeditious and complete clean-up of the area. It is imperative that individuals take every safety precaution when disposing of used charcoal. Once the charcoal is finished being used, allow it to sit in the grill for at least 24-hours before placing it in the dumpster; placing used charcoal in the dumpster too soon will likely start a fire. Violations of this section may result in loss of privileges, as well as more severe sanctions.

Rules and Regulations

Fire safety

All residents must evacuate the building when a fire alarm sounds and move to the assembly area listed below. Failure to cooperate or to evacuate during a fire alarm; causing of a false fire alarm; inappropriate behavior which results in the activation of a fire alarm; interfering with the proper functioning of a fire alarm system; tampering with, damaging or removing fire hoses, extinguishers, exit lights, heat / smoke sensors, extinguisher boxes or alarm covers, or any other fire safety apparatus is strictly prohibited. The use of any open-flamed devices such as candles, sternos, and incense and kerosene lamps is prohibited. All new students attending the orientation program, including residential students are required to participate in workshops hosted by the Vice President of Student Services Office, Campus Security, local alcohol/drug rehabilitation programs and the local YWCA. These workshops include information about campus policies regarding the topics listed above, local resources available to students for the topics listed above and role-play opportunities for students to practice new ideas presented during these programming opportunities.

Each year student leaders, resident assistants and athletes receive training on sexual assault prevention as well as bystander intervention.
