## V. JAMES RENDA FACULTY RESOURCE CENTER FOR ACADEMIC EXCELLENCE

October 2021

### WELCOME NEW AVP: DR. ESCOBAR

Dr. Fabio Escobar recently began his role as Assistant Vice President of Academic Affairs at NCCC. He has a B.A. in Political Science and Philosophy from California State University and a Ph.D. in Philosophy from the University at Buffalo. He says: "I'm excited to begin working with FRCAE and NCCC faculty on the many exciting teaching and learning challenges that present themselves at this crucial moment in history. As a philosopher and community college teacher and administrator for the past two decades, it is a thrill to join an institution with a robust and faculty-led program of

professional development. I can't wait to dive into the day to day details and support the mission of the V. James Renda Faculty Resource Center for Academic Excellence."

**What are you most looking forward to in your new role at Niagara County Community College?** Working directly with faculty on curriculum and assessment.

**What do you find most rewarding about working in higher education?** Working on complex long-term projects that have a positive student impact.

**What is your favorite part of working with non-traditional students?** Learning about their path into higher education. Everyone has a unique path that led them to where they are now, and it is fascinating to see the diverse ways that lead people to improve themselves through education.

**What is your favorite book and/or author?** Nietzsche's *Thus Spoke Zarathustra*. It woke me up to a better understanding of the philosophical canon and how it can be questioned in a rigorous way.

**What is the best advice you have ever received?** To surround myself with people who complement and challenge me rather than those who are just like me.

## INFORMATION LITERACY

The newly revised SUNY General Education Framework establishes Information Literacy as a core competency required of all students. Library instruction is an ideal way to incorporate information literacy skills in your courses. Our teaching objectives address essential skills that will enable students to:

- Determine the nature and extent of information needed for a project
- Locate needed information effectively and efficiently
- Use information for a specific and intended purpose
- Recognize the legal and ethical considerations in the use of information

We are happy to customize a lesson to meet the criteria of a specific course project, or even assist in developing that project. A variety of modalities is available:

- In-person using the library instruction classroom or your assigned classroom
- Virtually – synchronous or asynchronous
- As part of an embedded program, in which an assigned librarian can provide extended assistance over the duration of the course

To schedule, please complete this form: <https://libguides.niagaracc.suny.edu/welcome/instruction> or to discuss further, contact NCCC's Instruction and Assessment Librarian: Andrew Yeager at [ayeager@niagaracc.suny.edu](mailto:ayeager@niagaracc.suny.edu) or 716-614-6781.
